Skills

Languages: JavaScript (ES6+), TypeScript, Python

Frameworks/Libraries: ReactJs, NodeJs, ExpressJS, Jest, Styled Components

Database: MySQL, MongoDB **Version Control:** Git/GitHub, Bitbucket

Technologies: REST APIs, AWS (S3, API Gateway, Lambda, DynamoDB, CloudFront), Jenkins

Experience

Lowe's India, Bangalore

Mar 2025 – Present

Software Engineer

- Developed and maintained Order History, Details and Modifications pages, enhancing user experience for millions of Lowe's customers.
- To improve customer experience, worked on an AI-powered agent that allows users to view, update, and manage their orders efficiently.
- Contributed to the Micro Frontend architecture, enabling independent deployment and better maintainability of multiple UI modules.
- Improved page load performance and optimized API integrations, leading to faster data rendering and improved customer satisfaction.

Accenture Solutions Pvt Ltd, Coimbatore

Aug 2021 – Feb 2025

Custom Software Engineering Analyst

Project : Travelers - Business Insurance Application

- Developed dynamic, responsive web application using React.js, ensuring a seamless user experience across platforms.
- Improved application performance significantly through code splitting, Lazy loading and optimization strategies.
- Implemented caching technique, resulting in a reduction in overall response time which prevents redundant downstream API requests.
- Developed and maintained **REST APIs** using NodeJs, providing secure endpoints for the UI.
- Integrated **MongoDB Atlas Search** to build a **PDF search functionality**, providing efficient document retrieval with advanced search capabilities in the User Interface.
- Led the **Deployment** of React application to **AWS S3** with **CloudFront** and backend microservices to production using GitOps principles, ensuring seamless, automated, and controlled release processes.
- Conducted unit and integration testing using **Jest**, **React Testing Library**, improving code quality and minimizing bugs in production.
- Actively engaged in **50+ code reviews**, elevating quality by identifying and rectifying issues. Provided mentorship to junior developers, fostering their growth and knowledge in line with best practices.

Projects

WIZChat | *Real-time user chat platform* | React, Nodejs, Socket.io, AWS

Mindspire | *Personalized blogging and publishing app* | React, Redux, Nodejs, Semantic-UI, AWS

PostVerse | *Microblogging and post-sharing platform* | React, Nodejs, AWS

Education

Tamilnadu College of Engineering

Aug 2017 – May 2021

Bachelor of Engineering in computer science

Coimbatore, Tamil Nadu

Awards and Certifications

- AWS Certified Cloud Practitioner
- Received **Commitment of Excellence award** from client for displaying outstanding performance during FY22.
- Got First place for Project from Department of CSE, IIC, MHRD in the Academic Year 2019-2020.
